

3/4R CLASSROOM FEATURE

Olympics are all around us. From participating in the school olympics, learning about near neighbour countries, measuring many things including how far our paper aeroplane could fly and the length of our strides, then using this data to graph by hand and using the computer. We are looking forward to continuing our Olympic theme when we enter the pool next week! We have had our water safety talk and are ready to get kicking. Here is just a sample of the many things we have been working on this week.
